5. Comment

a. The list No. 1 (paragraph 3) of this report indicates those products which are being manufactured by the Soviet Zone Soviet Corporation plants and which formerly were supplied only by the Western Zones of Germany and by other countries. The list No. 2 (paragraph 4) indicates equipment, finished goods, materials and semi-finished products which formerly were supplied by the Western Zones of Germany and which, in the second half of 1948 and in 1949, are scheduled to be manufactured in the Soviet Zone of Germany partly by German plants and partly by Soviet Corporation plants. The counterblockade of the Western Powers, enforced since the middle of 1948, may have been responsible for this "Special Production" plan of the German Economic Commission. The purpose of this plan is to produce in the Soviet Zone of Germany those critical semi-finished and finished materials previously delivered by the Western Zones. It is significant that apparently also Soviet Corporation products, which so far were shipped mostly to the SU and only in small amounts allocated to German plants in the Soviet Zone assigned to reparation deliveries, will be used increasingly to support the production of German plants in the Soviet Zone. The production of German Plants in the Soviet Zone alone cannot balance the loss of the supplies from the Western Zones of Germany.

b. The following Soviet Corporation plants will be assigned to support this special production program:

(1) "Marten" Soviet Corporation with:

THALE Ironworks
RASBERG "Oswald Kunsch" Plant
FRANKLEBEN Steel- and Ironworks
CHEMNITZ "Krauthelm" Plant

(2) "Hedy" Soviet Corporation with:

HEITSTEDT Nonferrous Metal Rolling Mill
NIEDERSCHEIDT "Werrawerk Krupp" Plant
ZSCHORLAU/Aue Tungsten Plant

(3) "Amo" Soviet Corporation with:

"H. Wolf" Engineering Works in MAGDEBURG-BUCKAU and MAGDEBURG-SALEKE
"Krupp-Gruson" Engineering Works in MAGDEBURG
"Otto Gruson" Engineering Works in MAGDEBURG

(4) "Frybol" Soviet Corporation with:

"Schaeffer and Budenberg" Plant for fittings in MAGDEBURG
"Steinle and Hartung" Plant for fittings in QUEDLINBURG
"Sachsenwerk" Plant for Measuring Instruments and Ultra short-wave Instruments in RADEBERG
"Siemens and Halske" Plant in ZWOENITZ
HEILENAU Foundry for die-and pressure castings
"Siemens and Halske" Plant in CHEMNITZ
"Kaber" Mechanical Plant in SUHL

(5) "Tsodyemnik" Soviet Corporation with:

"Henry Pels" Engineering Works in ERFURT
"Mako" Engineering Works in RUDISLEBEN
"Wetzel" Engineering Works in LEIPZIG
"Jaeger & Co" Engineering Works in LEIPZIG
"Schumann & Co." Engineering Works in LEIPZIG
"Unruh & Liebig" Engineering Works in LEIPZIG
"Peniger" Engineering Works in PENIG
"Eleichert" Plant for lifting and conveying machinery (and subsidiaries) in LEIPZIG
"Mackensen" Engineering Works in MAGDEBURG
"Kyffhaeuser"-Huetten Engineering Works in ARTERN

(6) "Totshmach" Soviet Corporation with:

"Keilparth" Plant for measuring instruments in SUHL
"Gebr.Thiel" Watch factory (and subsidiaries) in RUHLA
"Olympia" Typewriter Plant in ERFURT

"Bloedner & Vierschroth" Rubber Plant in GOTHA

"Gothania" Rubber Plant in HOERSELBAU/WALTERSHAUSEN

Thuringia Rubber Hose Factory in WALTERSHAUSEN/Thuringia

c. The rolling mill installations indicated on list No. 1 (paragraph 3) to be manufactured by the "Krupp-Gruson" Soviet Corporation Plant in MAGLEBURG presumably are scheduled for the projected new Rolling Mills in HENNINGSDOERF and RIESA. The ball bearing production indicated in list No. 1 is especially noteworthy. According to this schedule the "Avtovelo" Soviet Corporation Plants will total a production of 35,900 ball bearings and roller bearings of various sizes in the 2nd half of 1948 and of 82,400 ball bearings and roller bearings in 1949.

d. When the lists were translated from Russian into German the chemical terms of list No. 2 (paragraph 4) were not always understandable. If the German translation of the Russian term was doubtful the word was given a question mark.
